

The RMI-6, and RMI-10 remote controls are designed for use with Ivie Technologies iFlex mixers. They consist of a set of six or ten remote control potentiometers built into a stand-alone "lap mixer" body. This control is an RS485 based Smart Control that will self-identify for ease of programming. The RMI-6 and RMI-10 also have the capability to auto-identify with an iFlex mixer, where the mixer will sense the presence of the RMI-6 or RMI-10 as it is physically connected as if a contact closure had been made. This allows the RMI-6 or RMI-10 to take control of the system by simply plugging the unit into an RJ45 wall jack. Over-all construction is very sturdy.

FEATURES

- Each potentiometer may be assigned by iFlex Sonata software to control any level or combination of levels in a Sonata layout or design.
- iFlex mixers can sense if the RMI-10 is present or not, and can be set to revert to levels preset in the layout if the mixer is not present.
- Communication from the RMI-10 remote control to an iFlex mixer is by means of RS-485 over standard Cat5e (or better) cable.
- A 25 foot length of supple, stranded-conductor Cat5e cable with black jacket is provided. The RJ-45 connector on each end is rubber booted for protection and strain relief.
- Connection of the cable to the RMI-10 is by means of a robust RJ-45 connector in one side of the remote control body.

• RMI-6	
• Size -	8 1/2 x 4 x 1 1/2 in.
• Weight -	12.3 oz.
• RMI-10	
• Size -	12 x 4 x 1 1/2 in.
• Weight	1 lb. 3 oz.

WARRANTY (Limited): Ivie iFlex products are guaranteed for five (5) years from date of original purchase against malfunction due to defects in workmanship and materials. If such malfunction occurs, unit will be repaired or replaced (at our option) without charge for materials or labor, if delivered shipping prepaid, to an authorized Ivie service facility. Warranty does not cover finish or appearance items or malfunction due to abuse, modification, lightning, or operation at other than specified conditions. Repair by other than Ivie or its authorized service agencies will void this guarantee. Products are sold on the basis of specifications applicable at the time of malfunction. Ivie shall have no obligation to modify or update product once sold.
